Arctic Group Maritime a.s.

Quality Food Sales Worldwide. Established 1990

Live Norwegian Red King Crab:

Arctic Group Maritime AS is one of Norway's leading exporters of wild crabs together with wild scallops, handpicked by divers at sea.

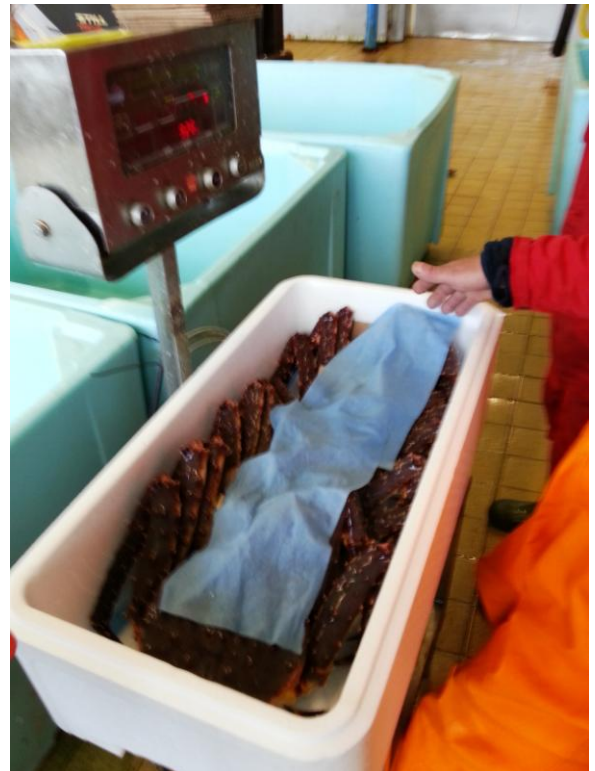

The catching areas/zones are at the Norwegian coast line of Barents Sea with its clean ice cold waters making the environment optimal for the red king crab to gain the ultimate high quality and purity.

The main quota season last from 1st. of August to 31st. of July where the main quantity is catch from August to December. The quota is obtained by mostly small coastal fishing boats.

The yearly size of quota considers balancing the outtake that allows nature the potential for good growth recovery.
